UN

ASSIGNMENT

WHEREAS, we, **Gary K. Owens, Christopher Mack, and Randall Blank** (the "Assignors"), have made an invention entitled

"COMPOSITIONS AND METHODS FOR MODULATING EXPRESSION WITHIN SMOOTH MUSCLE CELLS"

described in International Patent Application No. PCT/US99/24972 filed October 22, 1999 and in U.S. Provisional Patent Application No. 60/105,330, filed October 23, 1998, entitled "Identification of a Smooth Muscle Cell Gene Targeting/Overexpression Vector System Derived from the Smooth Muscle α -Actin Gene" and

WHEREAS, the University of Virginia, 314 Madison Hall, P.O. Box 400301, Charlottesville, Virginia 22904-4301, (the "Assignee"), is desirous of acquiring the entire right, title and interest in and to the aforesaid invention, including any tangible materials embodied in or encompassed by the invention and any trade secrets pertaining to the invention, and any improvements thereon, (the "Invention") and in and to said applications for Letters Patent thereon in the United States, its territories and possessions ("United States") and all foreign countries, including rights to claim priority, to any provisional applications, and in and to any Letters Patent of the United States or any foreign country which may be granted therefor, including any and all reissues, divisions, continuations, continuations-in-part, renewals, substitutes or extensions thereof (the "Rights").

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors have sold, assigned, transferred and conveyed, and do hereby sell, assign, transfer and convey to Assignee, its successors and assigns, the entire right, title and interest in and to the aforesaid Invention and Rights. The aforesaid assignment includes the right in and to all income, royalties, damages and payments now or hereafter due or payable with respect to any Letters Patent which may be granted, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment, as fully and entirely as the same would have been held and enjoyed by Assignors if this sale and assignment had not been made;

AND Assignors hereby authorize and request the appropriate governmental officials to issue any and all such United States or foreign Letters Patent under said Invention, or resulting from any of said applications thereof, to the Assignee, as the assignee of the entire right, title and interest in and to the same;

AND Assignors hereby represent, warrant and covenant that Assignors have the full right to convey the entire interest herein assigned, that Assignors have not executed and will not execute any instrument or assignment in conflict herewith, and that the rights assigned herein are not otherwise encumbered by any grant, license or right;

AND Assignors further covenant and agree that Assignors will at any time upon request make, execute and deliver without further compensation, any and all other instruments in writing, including further applications, papers, affidavits, power of attorney, assignments, and other documents, and do all lawful acts and things, which, in the opinion of counsel for said Assignee, its successors and assigns, may in any country be required or necessary more effectively to secure to and vest in said Assignee, its successors and assigns the entire right, title and interest in and to said Invention and Rights hereby sold, assigned, transferred and conveyed, and that Assignors will sign any applications for reissue, division, continuation, continuation-in-part, renewal, substitute or extension of said application for Letters Patent or any resulting Letters Patent;

AND Assignors further covenant and agree that Assignors will at any time upon request communicate to the Assignee, its successors, assigns or other legal representatives any facts relating to the aforesaid invention known to Assignors, and will testify as to the same in any interference, litigation, mediation, arbitration or other proceeding when requested to do so.

IN WITNESS WHEREOF, Assignors have hereunto set their hands and seals.

ASSIGNMENT

WHEREAS, the University of Virginia Patent Foundation, a non-profit organization having a place of business at 1224 West Main Street, Suite 1-110, Charlottesville, Virginia 22903 (the "Assignor") possesses the right, title and interest for and in an invention entitled

"COMPOSITIONS AND METHODS FOR MODULATING EXPRESSION WITHIN SMOOTH MUSCLE CELLS"

described in U.S. Patent Application No. 09/807,757 filed April 17, 2001, and

WHEREAS, Gary K. Owens, Randall Blank, and Chris Mack (the "Assignees") are desirous of acquiring Assignor's entire right, title and interest in and to the aforesaid invention, including any tangible materials embodied in or encompassed by the invention and any trade secrets pertaining to the invention, (the "Invention") and in and to said applications for Letters Patent thereon in the United States, its territories and possessions ("United States") and all foreign countries, including rights to claim priority, to any provisional applications, and in and to any Letters Patent of the United States or any foreign country which may be granted therefor, (the "Rights");

NOW, THEREFORE, for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignor has sold, assigned, transferred and conveyed, and does hereby sell, assign, transfer and convey to Assignees, its successors and assigns, Assignor's entire right, title and interest in and to the aforesaid Invention and Rights, except that Assignor reserves a perpetual and royalty free right to make and use the Invention under the Rights for educational and research purposes, said reserved rights being non-transferable except to the University of Virginia; and Assignor reserves the right to be reimbursed for their out of pocket expenses incurred to date for the prosecution of the invention (totaling \$1661.00 US dollars), should the inventors receive consideration in the form of royalties, fees, or equity in exchange for the sale, assignment, transfer or license of the Invention, wherein the total of such consideration is in excess of the Assignor's patent prosecution costs. Nothing herein shall be construed to affect or limit the pre-existing royalty-free rights required to be granted to the U.S. Government pursuant to 37 CFR part 401. The aforesaid assignment includes the Assignor's right in and to all income, royalties, damages and payments now or hereafter due or payable with respect to any Letters Patent which may be granted, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment, as fully and entirely as the same would have been held and enjoyed by Assignor if this sale and assignment had not been made;

AND Assignor hereby authorizes and requests the appropriate governmental officials to issue any and all such United States or foreign Letters Patent under said invention, or resulting from any of said applications thereof, to the Assignees;

HOWEVER, Assignees acknowledge that they need to request permission of the U.S. Government to make this Assignment pursuant to 35 USC 202(d); and Assignees hereby agrees that if such permission is granted, Assignees shall comply with the conditions set forth in 37 CFR 401.9. Assignees further agree that if such permission is denied, Assignees shall take whatever action is necessary to comply with the Government's requirements, including without limitations assignment of the Rights for the U.S. Government.
